Have your say in shaping future NHS dermatology services - Survey ends 4 June. We are proposing changes to your local dermatology services. We have recently held a number of events in Crawley, Haywards Heath, Oxted and Uckfield and heard from people who had used local dermatology services and who wanted to feed back their experience. As a result of that feedback we now want to focus on two key areas: Patients/carers of patients who have recently used dermatology services because of skin cancer-malignant melanoma (MM), squamous cell carcinoma (SCC) and basal cell carcinoma (BCC).

Patients/carers of patients with a long term skin condition(s): If you or a member of the family has experienced one or both of these skin conditions then we would very much appreciate your time in completing this survey. Mental Health Awareness Week sees a new approach to mental health support in West Sussex. Mental Health Awareness Week 14 - 20 May sees the launch of a pioneering new approach to mental health support in West Sussex. Pathfinder West Sussex brings together an alliance of ten third sector providers working across the county in partnership with Sussex Partnership NHS Foundation Trust to enable people with mental health support needs, and their

carers, to improve their mental health and wellbeing.
